Software Engineer at *1406 Consulting*

07.2023 – Present | Remote

Created an internal management portal using NextJS. Included advanced features such as **User Authentication** with Google, Analytics and metrics, and Documentation Management.

Developed backend integrations between third-party data sources and the primary CRM **Hubspot**.

Stack: NextJS, Typescript, Javascript, NodeJS, Material UI, React

Sr. Frontend Engineer at *Redesign Health*

06.2022 – 10.2022 | Remote

Built an authentication platform for web applications using **React**, **NextJS**, **MUI**, and **NodeJS**, ensuring seamless and secure user authentication.

Championed **ADA Compliance** for client products, ensuring accessibility standards were met to reach a wider audience.

Played a key role in hiring members of the engineering team, contributing to the growth and success of the team.

Stack: NextJS, Typescript, Material UI, Figma, Styled Components, React

Sr. Developer, Technical Lead at *Area 23 HC*

06.2018 – 06.2021 | New York, NY

Led the development of an immersive audio-visual experience with advanced animations. Used **React** & **Electron** for a captivating presentation system.

Developed and deployed multiple APIs, featuring screen capture using **puppeteer**, email automation via Mailgun/**SendGrid**, and efficient client database & vendor API management.

Created a custom **Strapi** plugin with **MySQL** to host images, optimizing content management. Proficient in **Node.js** and SQL ORM tools like **Knex** & **Sequelize**.

Stack: Docker, Azure, PHP, Javascript, React, React Native, NodeJS, ExpressJS, GraphQL, MySQL, MongoDB, PM2, Puppeteer

Skills WordPress, HTML5, Node.js, CSS, ExpressJS, Javascript SASS, SCSS, Babel, ES+, Docker, PM2, React, React Native, PHP, Gulp, Python, Typescript, Laravel, Webpack, Sketch, Zeplin, JIRA, Workfront, MySQL, Knex, PostgreSQL, MongoDB, CosmoDB, Azure, Adobe Photoshop, Adobe InDesign, Strapi, Koa, Redux, Email Development, Mailgun, API Integration, Genesys Chat and *so much more...*

Lead Engineer at *Use All Five*

01.2023 – 07.2023 | Remote

Independently led development projects to completion and assisted scrum masters with daily tasks.

Stack: Django, React, NextJS, Python, Javascript, GraphQL, Wagtail

Lead Sr. UI Developer at *Cognizant*

06.2021 – 06.2022 | Remote

Integrated and customized a third-party chat plugin into a **high-traffic e-commerce** website, showcasing strong **JavaScript**, data structures, and algorithms skills. Improved customer engagement and support.

Led local and offshore development teams across different time-zones. Ensured seamless collaboration and timely project deliveries.

Deployed content to staging and production using **Zeus** and **Tealium**. Streamlined deployment process and content management.

Stack: Javascript, Java, Bootstrap, SCSS, Tealium, Zeus, Git, JIRA

Marketing Web Developer at *Complex Networks*

06.2021 – 06.2022 | Remote

Designed and developed first-to-market display ad products for client brands, boosting brand visibility and engagement.

Acted as a technical advisor to 100+ publisher websites, ensuring top-notch support and quality assurance for rich media products.

Developed internal applications supporting the ad team in organizing, deploying, and testing content for the private ad network, streamlining workflows effectively.

Stack: Wordpress, Javascript, React, CSS, Gulp, Grunt

Education

The Pennsylvania State University

Bachelor of Arts, Integrative Arts

2013 – 2018
